

1- How to run IMODE code

- Extract IMODE.rar file
- Open main_loop.m
- Set the problem dimension at Introd_Par.m as desired, line 9, i.e. n=5 or n=10 or n=15 or n=20.
- The final results statistics will be shown on Matlab's command window.

2- Queries

Should you have any query, please feel free to contact me Dr. Karam Sallam on karam_sallam@zu.edu.eg

3- Note

please use MATLAB R2018b or later versions to run the algorithm.
